YOUR MISSIONARIES TO  
**HAITI**

October-December 2018

Greetings from Haiti,

We had such a special time with Vacation Bible School this year. Our attendance in the mountains was down because of it being the garden season, so the children would go help in the fields or stay home to tend to the household chores so their Mamas could help. Marlene brought us the story of the Life of Daniel. The kids sat so still and listened. It was encouraging. I pray that they will hold that wonderful story in their hearts and accept Jesus as their Saviour.

School is doing just fine. Met Always is still the older classes professor. We have a new professor for our preschool and kindergarten. Her name is Madam Macula. She has done so very well with the little ones. Our Sarah has done very well in the village and will be ready soon for her exams.

The older girls have been very busy decorating for Christmas. They have put the tree up and have made all their own decorations to put on it. It is very pretty!!

Lydia is doing very well after her surgery. She has grown so much and have done so well in school this year. This month Lydia will have her physical with her Korean Dr. in Port au Prince. We are very thankful to everyone who has prayed for her. God truly does answer prayer and all is in His hands.

Please pray for Haiti. Our people need the Lord, and We also need your prayers so that we can be the testimony before them that will glorify our Lord and Saviour.

Thank you to many who have helped us with our Dr. bills, getting our school ready for the year, and the many repairs that needed to be done. God is faithful!

May you all have a Merry Christmas and Blessed New Year.

Under His Wings,

*Connie Anderson*
